

Payday Perennial Ryegrass

Payday is a tetraploid perennial ryegrass that offers great rust resistance and excellent palatability. It is an excellent companion to alfalfa and other grasses, as it is late maturing.

Payday was specifically selected for both its wide palatable leaves and its persistence. Many tetraploid varieties tend to be less hardy than diploid options, but Payday is a leader in it's class in its longevity!

Ryegrass offers great erosion control and rapid establishment!

Seeding Method:	Frost seed, Drill, or Broadcast
Seeding Rate:	25-30# mono, 4-9# for mixes & overseeding
Seeding Depth:	1/4" - 1/2"
Seeding Dates:	2/15 - 5/1 or 8/15 - 9/20
Notes:	Ryegrass can be challenging to dry down for dry hay. When using for hay, keep ryegrass at less than 20% of the mix.
