

BENETILL

What's in the mix?

Nitro Oats
Radish Oats

Seeding Rate: 48 - 75#/ ac
Seeding Date: Aug 1 - Sep 20

beneTILL

This oat radish mix is a great cover crop option for those looking for a mix that is simple to manage. In most situations north of I-70 the oats and radish will winterkill and corn can be planted directly into this mix. This mix offers great fall grazing, nutrient recycling, and compaction alleviation. Seed at least six weeks prior to a killing frost.

Management Experience: Beginner Friendly
