

MGF Allstock Mixture

MGF Allstock Mixture is designed to be a simple grass pasture mixture that is suited for all classes of livestock. It contains endophyte-free tall fescue, perennial ryegrass, and orchardgrass.

This mixture offers great palatability and nutrition, as well as durability. This grass blend is a great option for those looking for simplicity of establishment and management.

Allstock Mixture can be used as both a grass pasture or grass hay mixture! It can be mixed with alfalfa or clover if desired.
