

## 404LH Alfalfa

404LH is a great choice for producers wanting to safeguard their alfalfa against potato leaf hoppers! It has increased pubescence, which helps to deter the leaf hoppers and protect yield and quality. It is a great choice for those in no-spray situations!

404LH has an excellent DRI, and good yield potential!

404LH comes with a replant policy that if notified of a problem within 60 days of establishment, replant seed is 50% retail cost.
